EXPERIENCE

Stanford Center for Biomedical Informatics Research

Gevaert Lab Student Researcher

2024 - Present

California

- Developed breast cancer segmentation and diagnosis machine learning models under researcher Chris Sadée.

FRC 604: Quixilver Robotics

Controls/Software Lead (10)

2022 - Present

California

- Enhanced robot capabilities with computer vision and sensor integration, contributed to team software (particle filter localizer, time-optimal trajectory optimizer).
- Led team's global ranking to increase from #71 to #12 through leadership in robot design, manufacturing, programming, and strategic planning.
- Developed progressive web app for TheBlueAlliance, modernizing the widely-used platform providing real-time access to 30 years of competition and team data. Organized and attended 25+ community outreach events (science fairs, robot demos, conferences, etc).

UCLA COSMOS (CA Summer School for Mathematics & Science)

Brain-Inspired Computing Cohort Member

2024

California

- Gained proficiency in 20+ key machine learning mechanisms under mentorship of Prof. Hugh Tad Blair. Explored intersection of neurobiological mechanisms and computing.
- Developed ML problem-solving and data analysis skills by applying theoretical learnings to practical assignments.

PROJECTS

StereoSampleGAN

GitHub Repo: <https://github.com/shuklabhay/stereo-sample-gan>

- Developed a WGAN-based approach for high-fidelity stereo audio sample generation. Leveraged attention mechanisms, optimized loss functions, and effective signal processing. Research partially funded by UCLA and pending publication.
- Overcame low-quality monophonic limitations of existing audio generation methods with a 99.77% reduction in training epoch count and 9.56x reduction in parameter count.

Quickscout

GitHub Organization: <https://github.com/frc604>

- Developed a scalable scouting application for FRC event data collection and visualization. New captured metrics empower informed strategic decisions at high-stakes competitions, contributing to the team's international success.
- Supports 130+ users on FRC604, collected data for 750+ team robots over 2 years. Trained 10+ team members in web development to build application and expand capabilities to fit annual challenges.

EDUCATION

Leland High School

Junior

4.00 UW A-G

San Jose, CA

SKILLS

Technical Fields

AI/ML, Robotics, Signal Processing, CAD, 3D Printing, Webdev/Appdev

Other

Digital Audio Production, Graphic Design, Video Editing

HONORS & AWARDS

- FRC604: City of San Jose Recognition for STEM Outreach and Team Performance 2024
- FRC604: World Championship Milstein Division Winner (4/300 in CA, 12/3500 Internationally) 2024
- NextFlex FlexFactor: Entrepreneurship Competition Winner (1/260 in Santa Clara) 2024
- OneHacks III Hackathon: Third Place (3/120 Internationally) 2023
